

SHISHIR JAIMIN BHAVSAR

Diploma in Computer Science Engineering | 3rd Year | Mumbai

+91 7400301950 · shishirbhavsar4@gmail.com · Malad (W), Mumbai – 400064 · github.com/svdgamerz · [LinkedIn](#)

ABOUT ME

Motivated 3rd-year Diploma student in Computer Science Engineering at Shri Bhagubhai Mafatlal Polytechnic College of Engineering, with a consistent distinction (82.6% in board exams). Passionate about Android development, AI/ML, software engineering, and UI/UX design. Built Face Studio — an AI-powered Android app — as a capstone project at the DLAI 2026 workshop, jointly organised by DAU (DA-ICT) Gandhinagar & ISI Kolkata. Actively seeking an internship to apply hands-on skills in a real-world environment.

EDUCATION

Diploma in Computer Science Engineering 2024 – 2027
Shri Bhagubhai Mafatlal Polytechnic College of Engineering

Current Standing: Distinction | 82.6% in SSC Board Exams

Secondary School Certificate (SSC) 2011 – 2024
G.E.S. English Medium School

TECHNICAL SKILLS

Languages	Java, Python, C, C#, JavaScript, HTML, CSS
Frameworks	React, Android SDK, Windows Forms
Databases	MySQL, Database Management Systems
Tools	Git, VS Code, Android Studio
AI / ML	Deep Learning, Neural Networks, Computer Vision (DLAI 2026 – DAU & ISI Kolkata)
Soft Skills	Problem Solving, Event Management, UI/UX Design, Video Editing

TECHNICAL PROJECTS

KAVACH – AI SOAR & XDR Platform FastAPI / React / TypeScript

FastAPI | React | TypeScript | SOAR & XDR | AI Threat Defense | WebSockets

- Architected an enterprise-grade AI-powered SOAR & XDR cybersecurity platform delivering automated real-time threat detection and mitigation (<12ms response).
- Implemented FastAPI backend services with 12 database models, live WebSocket telemetry streaming, automated DAG response playbooks, and MITRE ATT&CK framework mapping.

TARK – Agentic Reasoning Platform React / TypeScript / Python

React | TypeScript | Python | Multi-Agent Systems | KaTeX | Mermaid.js

- Engineered an intelligent educational platform featuring multi-agent cognitive reasoning planners, dynamic DAG task execution, and adaptive knowledge retrieval.
- Built a modular React + TypeScript interface with real-time KaTeX math rendering, dynamic Mermaid.js architecture diagrams, and asynchronous backend microservices.

Face Studio – Android Application

DLAI 2026 | DAU & ISI Kolkata |
github.com/facestudio4

Android SDK | Deep Learning | Computer Vision | AI/ML

- Built an AI-powered Android application as the capstone project for the DLAI 2026 (Deep Learning & Artificial Intelligence: Principles & Practice) workshop, jointly conducted by Dhirubhai Ambani University (DAU), Gandhinagar and Indian Statistical Institute (ISI), Kolkata. Actively in continued development.
- Achieves ~90% face detection accuracy (9/10 faces detected correctly) across standard lighting conditions, with response time of 1–2 seconds on a Redmi Note 12 (Android) — validated through real-device testing.
- Delivered a production APK as part of the workshop deliverables, demonstrating end-to-end mobile AI development.

CERTIFICATIONS & WORKSHOPS

DLAI 2026 – Deep Learning & Artificial Intelligence: Principles & Practice

DAU, Gandhinagar & ISI Kolkata | 9–13 Mar 2026

Jointly organised by Dhirubhai Ambani University (DAU), Gandhinagar and Indian Statistical Institute (ISI), Kolkata · Backed by DST – Dept. of Science & Technology, Govt. of Gujarat and GUJCOST · Industry partners: MathWorks and GREENAI · Capstone: Face Studio Android App
The sessions spanned a wide spectrum of AI, including:

- Reinforcement Learning and its real-world applications
- Large Language Models and their evaluation
- Generative AI for Computer Vision
- Retrieval Augmented Generation (RAG)
- The evolution from Perceptrons to Transformers
- Image-based environmental intelligence and disaster prediction
- AI in smart farming and sensing systems

AWS Cloud Practitioner Training – ISTE Approved STTP

SVKM's SBMP College | 8–10 Jan 2026

Issued by SVKM's Shri Bhagubhai Mafatlal Polytechnic & College of Engineering · Approved by ISTE (Indian Society for Technical Education) · Covered AWS Cloud fundamentals, cloud infrastructure, and core practitioner-level concepts

Cisco Networking Academy – Ethical Hacker

Cisco Networking Academy | May 23, 2026

Certificate of Course Completion issued by Lynn Bloomer, Director, Cisco Networking Academy · Covered: Ethical hacking methodology, penetration testing, vulnerability scanning, social engineering, wired/wireless network exploits, application & cloud/mobile/IoT security, post-exploitation, and pentesting report creation

Claude Code 101

Anthropic | Jun 12, 2026

Certificate of Completion issued by Anthropic · Completed curriculum on agentic software development, terminal-based AI workflows (Claude Code CLI), test-driven agentic coding, and automated developer tooling

Introduction to Generative AI

IBM SkillsBuild | Jul 26, 2026

Certificate of Course Completion (ALM-COURSE_4058859) issued by IBM SkillsBuild · Completed 4 hours of coursework covering generative AI foundations, Large Language Models (LLMs), prompt engineering principles, and ethical AI deployment

IGNITE IT 8.0 – 18-Hour Hackathon

SVKM's SBMP College | 3–4 Sep 2026

Certificate of Participation issued by SVKM's Shri Bhagubhai Mafatlal Polytechnic & College of Engineering (IT Dept.) · Successfully completed an 18-hour intensive coding hackathon sprint focusing on collaborative development and rapid technical problem solving
